### La-May Face Powder Is Pure!

No White Lead—No Rice Powder—  
It Really Stays On Unusually Well.

Up to the present time it has been almost impossible to get a face powder to stay on longer than it takes to put it on. You powder your nose nicely and the first gust of wind or the first puff of your handkerchief and away goes the powder, leaving your nose red, shiny and conspicuous, probably just at the very moment when you would give anything to appear at your best. A specialist has at last perfected a pure powder that women say stays on wonderfully well. It does not contain white lead or starchy rice powder (Poudre de Riz) to make it stay on. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores and unsightly complexions. This improved formula contains a medicinal powder doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and irritations. It is called La-may (French, Poudre L'Amé). Because it is pure and because it stays on so well, it is already sold everywhere. The large size is only fifty cents and the trial size is twenty-five cents. When you use this delightful La-may and see how wonderfully it beautifies your complexion, you will understand why it so quickly became one of the most popular complexion powders sold in New York. If your home dealer is sold out you can order by mail of Herbert Roystone, 16 E. 18th St., New York.

**WHAT** fun your Kiddies are missing if they can't pick big bunches of delicious grapes right now in your back yard—and that's what they'd be doing if you had followed our advice and planted some vines last year! You don't need any room for grapes—you don't even need a fence. You can plant some on a trellis along the garage wall—or even over the door. And it's so easy to grow grapes—we'll tell you what little you need to know, and we can give you any varieties you prefer, or make up a selection for you—the ever-popular Concord, the prolific Niagara, the aromatic Delaware, and so on. Send us your grape order today (remember we guarantee successful growth) and ask us to mail you our new circular (attractively illustrated in color) on growing your own fruit.
