More than a photograph MOVETTE makes your snapshots live!

Smaller and easier to work than a regular "still picture" camera. Just slip in a cartridge—fifty feet of motion picture film, two minutes of action—and Turn the crank—that's all

YOU can put in or take out the cartridge in broad daylight. Start or stop anywhere, any moment. Make one cartridge take a dozen different incidents of a dozen different times or places. No focusing, no adjusting, no fogging or failure. Perfect picture—moving, living likeness just as you see in theatres—which you can project on the wall of any room with electricity whenever you want to.

See Free Demonstration of this most simple system of motion photography for the amateur. Price for complete outfit, consisting of camera and projector, **\$100**

THE Viburnums are all handsome shrubs. They are attractive in flower and exceedingly showy in fruit; but, what is more important than either, their continuously healthy foliage is very handsome. If you want a bulk of foliage to serve as a wall of green to shut off the street or screen the kitchen, laundry yard or garage, make a liberal use of Viburnum. Arrowwood is particularly good for mass planting; it is bushy and symmetrical, and grows from 8 to 10 feet high. Other shrubs that we recommend for quick screen effects are Mock Orange, Deutzia, Chinese Christmas Berry, Dogwood, Tartarian Maple, Golden Bell. Our catalogue pictures some and describes them all. Send for it—select some for immediate planting—we guarantee successful growth—and we will give you all the advice you need. A little time and a little money will give you a wealth of beauty!
