Tender gums—a warning

COAST defense protects the life of a nation, gum defense the life of a tooth. On the gum line danger lies. If it shrinks through Pyorrhea (Riggs' Disease) decay strikes into the heart of the tooth.

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infecting the joints or tonsils—or causing other ailments.

Forhan's FOR THE GUMS BRUSH YOUR TEETH WITH IT

Forhan's helps to prevent Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and free from tartar.

If gum shrinkage has already set in, start using Forhan's and consult a dental professional immediately for special treatment.
