They Have Bridged Writing Troubles for Millions

THEY carry millions far above a sea of writing troubles. You see them everywhere, in the hands of discriminating writers. And they have received an enthusiastic welcome here truly unique in all pen and pencil history.

EVERSHARP is always sharp—never sharpened. Enough lead for a quarter million words is carried beneath its beautiful jacket. A point for every word. Easy writing. Easy reading. Ten thousand words one cent!

There's a handy eraser, under cover, until needed. A built-in pocket clip prevents loss. A fine looker and a fine writer. Little wonder that so many have adopted Eversharp as a bosom companion for life, or that so many representative concerns have installed it as the official office pencil.

TEMPPOINT is the last word in ink-writing efficiency. It has a wonderful hand-hammered gold point that stands up under years of heavy writing and under the sharp attacks of harmful ink acids.

It has the wonderful Comb Feed by which just enough ink is fed to the paper—and no more. There are eight other Tempoint superiorities which any dealer will gladly explain.

In addition, every Tempoint dealer has the Tempoint Handwriting Chart by which you can find instantly the very Tempoint Pen that writes like you. No guesswork. Sheer, unalloyed writing comfort from the very outset.

Eversharp Pencils and Tempoint Pens are made in various lengths for pocket, chain, or lady's bag. The pens are made in both Screw-Joint and Self-Filling styles. Eversharp prices are \$1 and up. Tempoint prices are \$2.50 and up. Sold by better dealers everywhere. For utmost pen and pencil writing comfort buy your Eversharp and Tempoint now.
