To the Wholesale Dress Buyer!

Fashionable America responds heartily to Early Fall Showings of

MAISON HAAS DRESSES

EXCLUSIVE retail shops throughout the width and breadth of the land are reporting an enthusiastic response to their Maison Haas dress displays.

It is evident that our models stand silhouetted in sharp contrast against all other exclusive dress showing this Fall.

Discriminating dress buyers recognize in our models that indefinable charm that bespeaks an absolute adherence both to Parisian dictates and American requirements.

To Secure One of the Magnificent Bohn Syphon Refrigerators Specially Made for the

U.S. NAVY

Last August we were awarded by the U. S. Government a large contract for Refrigerators for battleships, armored cruisers, submarine chasers and other vessels of the first rate. The contract called for the very highest grade of construction ever put into Refrigerators by any manufacturer. These Refrigerators were shipped to the various Navy Yards.

When the Armistice was signed, most of the Refrigerators shipped to the Philadelphia Navy Yard could not be used because the vessels for which these Refrigerators were intended would not be built by the Government.

These Refrigerators were stored in the Philadelphia Navy Yard Buildings Nos. 400 and 401, and were shipped back to us. Those that are still left are now in the original crates, and are ready for immediate delivery or shipment, or can be held (on a small deposit) for Fall delivery. But the stock is almost exhausted.

These superb Refrigerators were made according to the rigid specifications of the Government, worked out in all details by the engineers of the U. S. Navy, and approved by the highest authorities. They have 4 doors, 5 shelves, and 2 bottom compartments. The size is 37½ inches wide, 20¾ inches deep, and 60 inches high, somewhat larger than the average run of Refrigerators. Ice capacity about 100 lbs.

These Refrigerators have exteriors of beautiful light sky-blue genuine fused-steel porcelain. The trim and fittings are handsome solid brass nickel-plated, with heavy solid brass nickel-plated sanitary legs equipped with brass sockets, with 6 inch clearance from the floor for easy cleaning.

$156.00

The lining is genuine pure white fused-steel porcelain, single piece and with round corners. Each process in the manufacture of these Refrigerators was rigidly inspected by Government engineers and approved during the manufacture.

Each Refrigerator is fitted with 2 Yale & Towne specially made nickel-plated padlocks, bearing the name "U. S. N."

It is obvious that for sea service they must be absolutely *proof against dampness.*

The Bohn Syphon Refrigerator is the standard of the world. All railroads use the Bohn Syphon System for their refrigerator cars, and every dining car in the land (the severest possible test of a Refrigerator) has a Bohn Syphon.

The actual market value of these Refrigerators is $250.00. We are offering them during this special sale at $156.00.

We have on exhibition here probably the largest and finest display of high-class Refrigerators in the country. You will find here Bohn Refrigerators in great variety, from $19.00 up, including the Bohn All-Metal "Ideal," same as used by the U. S. Government in Panama. All are now marked at very low prices

BOHN SYPHON REFRIGERATOR

During this Special Sale we have marked All Models at Radical Reductions
