A Stirring Sale of Furniture That Was Secured From the New York Exposition.

The scope, character and conduct of this sale claim the close personal attention of all buyers. Uncommon opportunities are presented. Measured by precedents and current standards the achievements we record are doubly wonderful.

The Third, Fourth and Fifth Floors of the Annex will be the trade-centres of this matchless occasion.

The leading American Furniture manufacturers have been exhibiting samples of their products in this city. These annual private exhibitions are designed to facilitate and expedite business.

The furniture involved is obviously perfect. Each piece was brought to this town to represent the skill and superiority of rival manufacturers.

Vast stocks are ordered from the samples on view, and when the exposition ends the samples are sacrificed.

It would be absurd and extravagant to pack and ship them back to the factories.

It is because we were large purchasers of such samples that this sale is a prominent feature of our August merchandising.

The furniture involved is obviously perfect. Each piece was brought to this town to represent the skill and superiority of rival manufacturers.

Each piece was expected to win the blue ribbon. Under the circumstances, do you think a mill-owner would enter any but the choicest results of his organization?

He knew his goods would be placed side by side with the products of competitors, all eager for the honors of patronage.

He knew the trained buyers of retail stores would examine, compare and criticise with merciless disinterestedness. You may rely upon the strength, finish, grace and beauty of every item.

The prices are fully a third less than regular rates.

Important News Concerning Carpets.

The cost of all Carpet wools has been bounding. Labor is receiving more liberal pay. These two influences have affected prices of all Carpets.

Manufacturers, individually and as an association, have notified the trade of a material and justifiable advance.

Newspapers have given the facts widespread notoriety. The Carpet market is a cheerful phase of brightening industrial and economic conditions.

Higher prices are the forerunners of prosperity.

The change caught us with an immense and well-bought stock. We haven't revised prices. Until the last yard of our present collection vanishes we'll adhere to values, would net us a snug profit.

But that principle is to serve the public. The Carpet bargains are splendid culmination in striking and positive money-saving for all.

EXTRA SUPER INGRAIN CARPETS, every thread wool; looms never wrought finer designs and color combinations; worth 80c.; our price 49c.

The 60c. kind at 39c. The 75c. kind at 54c. The 85c. kind at 69c.

Don't hold the thought that these offerings will continue. You'll be disappointed and chagrined. When this lot is sold we see no possibility of selling similar qualities at the prices that control now.
