SIR HENRY IRVING

MISS ELLEN TERRY

M. J. ROBESPIERRE

Sir Henry Irving, Ellen Terry and their company arrived on the steamer Marquette yesterday.

He has been coming to us for nearly twenty years—his first professional visit was in 1881. And not only does he say pleasing things. He brings the great productions of the English-speaking stage as well. The glad hand is stretched forth, more than common courtesy, and Sir Henry and his great professional friend, Miss Ellen Terry, were made to feel at home on this side of the water divide.

The presentation of "Robespierre," the great historical drama of this decade, forth, sustain interest among theatre-goers in all parts of the country. To get down to facts, Sir Henry brings the original cast with two exceptions—70 people in all—250 tons of scenery. THREE IN THE NET OF THE 8-HOUR LAW.

Contractors Must Answer for Making Employes Work Overtime.

TEST FOR THE STATUTE.

Penalty for Violations of the Law Means Practical Confiscation of Contracts.

EIGHT-HOUR LABOR LAW.

Eight hours shall constitute a legal day's work for all classes of employes in this State except those engaged in farm and domestic service. This section does not prevent an agreement for overtime at an increased compensation, except upon work by or for the State or a municipal corporation.

Each contract for such public work hereafter made shall contain a provision that the same shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provisions of this section.

When the charges against three contractors who were arraigned in Jefferson Market Police Court yesterday, were made known it was evident that the Eight-Hour law was something more than merely a lot of words on the statute books.

The contracting firms concerned are those of Charles T. Willis, of No. 156 Fifth avenue; Hexter Brothers, furniture dealers, of No. 309 Fifth avenue, and Jacob Veltter & Son, of No. 70 Bedford street.

The complaint in the case was with reference to work done in furnishing saw desks and other equipments the building in Madison avenue to be occupied by the Appellate Division of the Supreme Court. The contract was awarded to Willis for \$100,000.

The general complaint by the inspectors is that Hexter Brothers had compelled men to work more than eight hours a day, that the Veltters had worked men ten hours on Sunday, and had paid employes \$10 and \$12 a week instead of \$18 a week, the legal rate.

First Night of New Production at Weber & Fields.

AUDIENCE PLEASSED.

Each of the Favorite Comedians of the House Has Congenial Part.

Weber & Fields made a change in their bill last night by placing on the boards a burlesque of "The Only Way," which was substituted for "The Girl from Martin's." Alan Dale will in due time take a critical view of this production. It can be said, however, that the audience appeared to demonstrate its approval of the burlesque by laughing at it from beginning to end.

The first scene of the burlesque, of course, was the revolutionary tribunal. A half hundred citizens, comprising such joyful and pretty figures as Belle Robinson and Bonnie McGinn, awaited for the aristocratic victims of the guillotine, among whom were Peter Dally, in the play, Kidney Tartan.

Enlarged Prostate Cured.

Marvelous Effect of a System That Cures Perfectly.

A Rochester Fireman Wins a Notable Victory.

CAPT. RALPH PENDLEBURY.

Very much interested at Rochester, N. Y., by the recent cure of enlargement of the prostate gland in the person of Captain Ralph Pendlebury, Fire Engine Co. No. 7, herebefore enlarged of the prostate gland has been generally considered an incurable ailment. Capt. Pendlebury had suffered with this disease for over two years. The cure was effected by the use of a remedy called Solvent-Uterine, that would positively cure enlargement of the prostate gland, and the best thing about the treatment was this, that it was painless; was absolutely without damage to the patient; would work all the time; no knife or surgical treatment would be needed at all.

When a man is as old as the Captain was, he certainly would do just as he did; he obtained relief at once. The cure was only trifling in comparison with the results. His report is as follows: "I used Solvent-Uterine for prostate enlargement, with which I was afflicted for over two years very badly; for one year, every time I could catch it would be worse. I am glad I used Solvent-Uterine as one package cured me. It is the greatest remedy ever found."

Afflicted men should know how Solvent-Uterine can cure them without any pain without any operation, and with perfect safety. Send and get the free books that describe Solvent-Uterine; they will tell you all about it. It is a patent medicine; the books tell you just what it is made of. Write for these books at once. Manly Strength.

WEAKNESSES OF MEN, resulting from early indiscretions or later excesses, usually come on gradually. The study of this subject has held my attention for thirty years, forming a surprisingly good result. This led me to invent a portable battery that developed into my present.

Dr. Sanden Electric Belt,

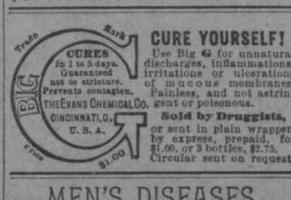

which is, I am prepared to say as man to man, a positive cure, a sure and safe restorer of lost strength if used faithfully and under my advice. The Dr. Sanden Electric Belt is nothing more or less than a perfect galvanic treatment in a convenient portable form. You simply buckle it comfortably around your waist at night and go to sleep. Next morning the weakness in back is gone, and you feel a hundred per cent. better in every way. Two, three or four months, as the case may be, are enough. The new electric suspensory, forming negative pole of belt, is a scientific and practical device so arranged as to pass the current in a continuous, mild stream directly through the prostate gland, spermatic cord and all weakened parts. It is a wonderful strength-giver, and even cures varicocele if not too severe. Why not investigate? Over 6,000 cures in 1898. Will you be among those of the coming year? Call to-day, if possible, for free consultation, see the Belt, test current, get my advice and then buy at your leisure; or if at a distance write for my descriptive book, sent free, sealed. I answer letters personally, diagnosing and advising accurately by mail. No charge.

DR. A. SANDEN, Broadway, Corner 12th Street, New York, N. Y. OFFICE HOURS: 9 A. M. to 9 P. M. Sunday 9 to 12.
