W. A. Post, superintendent of the yards at Newport News, was in charge of the vessel, and Captain G. W. Mason acted as navigating officer.

NO COMFORT FOR EAST SIDE POLICE.

Station House Dormitories Have Neither Heat Nor Water.

The publicity given through the Journal of the disgraceful condition of many of the police station in Manhattan caused much satisfaction to the members of the police force being housed in ill-ventilated, unhealthy buildings.

Some of the most aggravated cases of lack of attention to the necessary comforts of the policeman were found by a Journal reporter yesterday at the Delancey and Eldridge street station houses.

A certain amount of heat from the old-fashioned stoves on the ground floor rises to the second floor.

The solitary shower bath in each of these houses is below the street level and amid most uninviting surroundings.

"This house," said Captain Thompson, of the Delancey street station yesterday, "was built about 1825. It is one of the oldest landmarks in the district.

BOTH SIDES MAKE READY FOR 1900.

Dates and Places for National Conventions Discussed.

CHICAGO SEEKS THEM.

But Democrats Remember Her Treatment of Them in 1896.

Washington, Nov. 17.—Chairman James K. Jones, of the National Democratic Committee, is now taking the sense of the committee as to when it shall meet to fix the time and place for holding the national convention of 1900.

Chairman Jones favors January 8, but suggests February 11 as an alternative date. Each member has been required to indicate his preference, and as soon as the wishes of the majority are known, Chairman Jones will issue a call for a meeting in this city.

This promises to be a lively session, for there will be, on the part of some members at least, a determined opposition to Chicago, which city is again asking for the convention. While every one recognizes the central situation of Chicago, it is charged up against the city that the convention and the party did not receive fair play at her hands in '96, and that to hold the next convention there would be but to play a repetition of methods that were injurious to the party.

Senator Jones favors the earlier date for the committee meeting in order to give all the preliminary matters may be got out of the way as soon as possible. He is also in favor of a reasonably early national convention.

Spreckels Talks Against Expansion.

Chicago, Nov. 17.—John D. Spreckels, of San Francisco, a member of the Republican National Committee, passed through Chicago last night on his way to attend the meeting of the National Committee in Washington on December 14.

"I am an anti-expansionist," said he, "and as I came through the great prairies of the West I could not but think of the great good that might have been done in our own country with the money which we are now spending to maintain the army in the Philippines."

Mr. Spreckels said he thought it probable that the National Committee would select Chicago as the place for holding the next national convention.

Chairman Jones on His Way East.

Pine Bluff, Ark., Nov. 17.—Senator and Mrs. James K. Jones are in Pine Bluff. They leave to-morrow for Chicago, where the Senator will attend a meeting of the Democratic National Committee.

"The Ohio election is one that speaks volumes for Democracy," said the Senator, "while to the Administration it must carry unpleasant forebodings. The majority of the votes in Ohio is against the Administration. With the Republican party using an unlimited amount of money and Federal money in Ohio it is no wonder that Ohio went as it did. I am sorry McLean was beaten, for I expected him to be elected."

As to Kentucky, we shall beyond any question carry it to victory for Democracy in 1900, he said. He is no wonder that the Republicans are satisfied with the election of certain men. He mentioned Mr. Mary and the fold of Democracy and the winning of Nebraska as an omen that bodes no good for the present Administration.

William C. Whitney's name has been mentioned as one of the incorporators in the new telephone company. It has also been said that Mr. Whitney was greatly interested in the new enterprise.

"I am not at all connected with the new telephone company and have not been at any time. I have no interest in it and do not expect to take any interest in it. ECZEMA ON NOSE

For 9 Years Cured by CUTICURA In a Short Time After Five Doctors Failed.

I have suffered for nine years with sores in my nose. I consulted with a first-class doctor, and he told me it was never more than would soon pass away. I had four doctors treat me for nose trouble, but without seeming to do any good. My trouble was so bad my husband decided that I should go to N. Y. City and get treated. The best doctor in the city for nose, eye, and throat told me I had eczema in the worst form, and I must stay and get treated three times a week. I did not seem to get any relief, so my husband sent me to come home. While I was home I decided to try CUTICURA REMEDIES. I got CUTICURA SOAP, CUTICURA OINTMENT, and CUTICURA RESOLVENT, and I was surprised to find it was but a short time when my nose was all well. Mrs. C. S. VAN POSTRAND, April 26, 1896.
