# AUTOMATIC COOKING

Saves hours of time and work

At two o'clock put the food in the stove, set the timer and leave the kitchen.

You can go visiting or shopping while the meal is cooking. Or you can rest, read, sew or busy yourself with other household duties. You need not give any thought whatever to the meal. The Sentinel will cook it automatically.

The wonderful timing device of the Sentinel watches over the cooking as carefully and skillfully as you could if you were standing over the stove every minute. The cooking is then completed by the indirect heat from the radiator. Nothing is ever overcooked or undercooked. It gives perfect results every time.

It not only saves work but saves fuel as well.

At six o'clock you will find everything perfectly cooked, hot and ready to serve.

It soon pays for itself and then saves money for you. The Sentinel Automatic Cook Stove has all the advantages of a regular gas range plus the convenience of its automatic cooking features. You prepare the food in exactly the same way as you do when using the ordinary gas range. No pre-heating of food or radiators—no extra work of any kind.

Send Now for FREE BOOKLET Write today for our interesting booklet. The New and Easy Way to Cook, which gives full information about Sentinel Cook Stoves. It shows how automatic cooking saves you the hours you now have to spend in the kitchen—how it makes cooking the easiest of your household duties.
