The Lining Is a Single Piece of Steel

Except in the very largest models, a single piece of fused porcelain-steel forms the entire lining of the food compartments in the new

**BOHN SYPHON REFRIGERATOR**

"Seamless," as used before to describe refrigerator linings, has meant that joints were welded instead of locked. This new Bohn lining is the first actually made in a single piece. The corners are rounded; there is not a crack or a crevice anywhere. The material—genuine fused porcelain-steel—has no resemblance to the ordinary enamel paint.

The new lining is only one more point of Bohn superiority. Flax-linum insulation, the Siphon System, the extremely low temperature, the dryness of the air, the saving of ice—call and let us tell you about these, or write for handsome catalog.
