

Lillian Russell's
OWN
SMOOTHOUT
CREAM

It Velvetizes the Skin

"Youth rises up triumphant in the most neglected skin after a few refreshing treatments with my own Smoothout Cream. Clogged pores are cleansed, irritations allayed, and the skin smoothed by this soothing refreshing cream which liquefies as soon as it touches the face.

"Pat my Smoothout Cream into your cheeks and neck. It brings the blood to the surface, tones the tissues, refines the pores and restores to your face muscles the youthful elasticity necessary to smooth firm cheeks. Smoothout fortifies the skin against the wind and sun.

"Try a complexion bath of Smoothout Cream—you'll discover a new thrill and you'll make Smoothout a daily habit."

Whose Job Is The Harder?

After a cheery breakfast you are off to your business and return again weary at night to find a steaming dinner awaiting you.

Little does your wife realize the hard bludgeonings of a man's business day. Equally little do you know of the hundred and one things that go on behind the scenes in your household in order that it may be an efficient and cheerful home for you.

You are interested only in the results—that your coffee is good, not *what* percolator your wife uses; that your house is clean, not *what* vacuum cleaner made it so. "You should worry" about *where* the receipt of that wonderful dessert came from. You get the benefit, and that's enough.

That perplexing question in your daughter's musical education—it was answered by an expert. The result is all you are interested in.

Yet the children's clothes did not plan themselves. Your wife's flower garden, which adds so much to the place, did not "just grow." When your bed-room was "done over," you were saved the expense of an interior decorator.

Perhaps you have not given much thought to the very difficult business of being a housewife. But for many

years we have. The Delineator is a practical expert adviser on the perplexing problems of household affairs, depended upon and trusted in by more than a million progressive American homes. Without it such efficiency and economy in these homes would be impossible.

The Delineator tells the housewife all that modern science and art know about foods. It gives her constantly the newest ideas on home furnishing and decoration; it supplies scientific information on the care and upbringing of children; it makes it possible for women to make their own and their children's clothing. In The Delineator there are twenty-five regular departments each conducted by an expert.

Thousands of progressive women write us each month for advice on home problems and each one receives a personal reply from an expert qualified to give counsel.

The reason for The Delineator's extraordinary influence in a million homes is no secret. The answer is Service.

Take advantage of this service for *your* home. Let The Delineator save dollars in *your* household and bring hours of happy entertainment each month to the whole family.
