# The NEW EDISON

No Needles to Change—Plays All Makes of Records

**T**HROUGH the medium of this most wonderful of all musical instruments, Mr. Edison has made the joy of genuine music a universal possession. He has mastered the quality of life-like reproduction. He has eliminated the blight of mechanics. He has established a new art, Music's Re-Creation. Mr. Edison has created, at last, a standard of reality which the most critical musician endorses.

Over one million music lovers and music critics have been convinced after having witnessed the most daring tests to which a phonograph could be subjected—the actual comparison of the living tone, side by side with its re-creation on the New Edison.

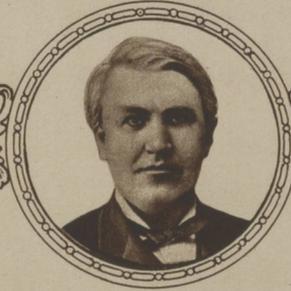

All of the subtle beauty, all of the living, breathing reality of life itself has been retained in this, "the phonograph with a soul."

You are invited to hear Mr. Edison's latest re-creation at any of the Edison dealer's shops listed below.
