**FREEZE-PROOF**

Radiator Trouble and Worry is a Thing of the Past

Don't let it interfere with your business or mar your pleasure. Use Johnson's Freeze-Proof, then forget there is such a thing as a frozen radiator. Leave your car uncovered on the coldest day—leave it at night in an unheated garage—IT CAN'T FREEZE.

Johnson's Freeze-Proof is the logical anti-freeze preparation to use for automobiles, trucks, tractors, stationary and gas engines, and electric lighting and heating plants. It is inexpensive—does not evaporate—is non-inflammable—easy to use—and guaranteed.

**JOHNSON'S FREEZE-PROOF**

does not evaporate, so one application is sufficient for the whole winter. It raises the boiling point 20° to 40°—chances of overheating are reduced correspondingly.

**More Dependable than Alcohol**

The present high price of alcohol—its low boiling point—quick evaporation and inflammability—make it impracticable. Purchase your supply of Johnson's Freeze-Proof early from your dealer and read and follow directions carefully. A little time spent now cleaning the radiator and putting on new hose connections will save you unlimited time, trouble, worry and expense during the winter.

One package of Johnson's Freeze-Proof will protect a Ford to 5° below zero, one and a half packages will protect a Ford 0° below zero and two packages to 50° below zero. For larger cars, or to protect to lower temperature, use additional Freeze-Proof according to the scale on package.  
Cost \$1.50 per package in U. S. A. East of Rockies.
