

ROARS OF NIAGARA HEARD IN NEW YORK.

Sound of the Mighty Cataract Easily Distinguished but a Little Deafening.

Transmitted in an Instant by Electric Wire Over a Distance of 507 Miles.

POWER OF THE WATERS SENT ALSO.

Wonders of the Electrical Exposition to Be Opened Next Monday by Governor Morton—Time and Distance Set at Naught.

For the first time in history the roar of the falls of Niagara was distinctly heard in New York City yesterday. That electric wires could be so arranged as to transmit the sound perfectly has been known as an established fact for years to persons interested in the study of electricity, yet an experiment with that end in view has never been carried to a successful issue until yesterday, when several people sat in the office of Engineer F. A. Picknell, on the second floor of the American Telephone and Telegraph Company, No. 153 Cedar street, and listened to the rushing waters over 500 miles away.

Mr. Picknell sat back in his chair and carried on a conversation with the men handling the big transmitter a few feet below the great falls. He told them to shift the mouthpieces a few feet further away as the roar was too great. Then he listened again and smiled.

"It's a little strong yet," he said, "but you can hear the roar of the water easily." Each person present placed a receiver to their ear in turn and each imagined he was within a few hundred feet of the great cataract, instead of a distance of 507 miles. The sound came easily to the ear, but it was not the exact natural tone. While one can recognize a certain voice over the wires there is a peculiarity to it not noticeable in ordinary conversation. The roar of the falls has the same peculiar effect.

DIFFICULTIES OVERCOME. The idea of stringing a wire from the falls for the purpose of demonstrating one of the many wonders of electricity at the electrical and kindred trades exposition, which will be held next week at the Grand Central Palace, An immense transmitter, with a mouthpiece large enough to hold a man, was placed on the ice about a hundred feet below the falls. Permission to place the appliance in position was obtained from the State Park Commissioners, who took an active interest in the experiment.

There were two great obstacles met with before success was reached. The greatest was that when the wind was blowing down the Niagara River tons of spray was showered over the transmitter, and this falling on the delicate appliance, created a noise itself, which interfered with the experiment. This was finally obviated by erecting a protection for the instrument. The second obstacle was the fact that the roar was too great. On approaching the cataract one becomes more or less accustomed to the sound of the rushing, seething water, but to be ushered to a point within hearing of it suddenly the effect is almost deafening.

The same effect is noticeable in listening to the roar by telephone. It was sufficiently powerful to be unpleasant, so receivers had to be so arranged as to deaden the noise. The wire used is the ordinary metallic circuit long distance wire. It was last night switched on to a wire connecting with the Grand Central Palace, where the officials of the exposition had Niagara in their ears for the first time from a distance.

Another interesting experiment was completed at the same time. An ordinary wire of the Western Union Telegraph Company was connected with a model of Niagara, and when a button was pressed the wheels started to turn. The power came over the wire from the original falls and had a strength of 350 volts.

MONITOR TO START IT. The exposition will show the very latest development in electricity and the many practical uses to which it can be put. It will be opened by Governor Levi P. Morton next Monday evening. He will touch the golden key which starts the machinery promptly at 8 o'clock. This key is the same one with which President Cleveland started the machinery of the World's Fair.

At the time the key is touched five canons will be fired by electricity simultaneously. One of these is in San Francisco, another in Augusta, Me., and the others in St. Louis, New Orleans and Chicago. This is done to illustrate the rapidity with which the subtle fluid reaches the ends of the world.

Practically all the electrical wonders of the world will be on exhibition. The most interesting of these, perhaps, in view of its recent discovery, will be public exhibitions of the X ray, and another exhibit will be reproductions by electricity of the likeness of all the great men of the city of New York. These will be shown every night, and concerts will be given in the afternoon and evening.

WONDERS TO BE SHOWN. Some of the things at the Electrical Exhibition which the Public Will Marvel at.

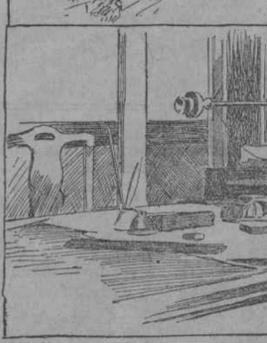

Some of the remarkable features of the great Electrical Exposition, which will be opened at the Grand Central Palace next Monday, in addition to those already mentioned:

Exhibit by Tiffany of phosphorescent diamonds, shown in a book bound with black satin and connected with a powerful electrical current, which, when shut off, will still cause the diamonds to glow with an intensity sufficient to illuminate the booth.

Apparatus loaned by Columbia College, Cornell University, the City of New York and other great educational institutions. Illustrations to show how long it takes a message to pass through the ether.

A demonstration of electrical waves, showing things to see and to wonder at by the thousand. Almost as big a wonder as any is how so many of them can be brought together for public entertainment and instruction.

A Woman in White will be there to run the machinery. She will carry coal, feed the furnaces, sift and carry away the ashes and do scores of other chores—knitting her cotton all she can.

THE FALLS OF NIAGARA

Hearing Niagara Falls by Wire.

One of the features of the electrical exposition to be opened in Grand Central Palace on Monday is a telephone through which the roar of Niagara can be plainly heard. The transmitter shown in the illustration is of unusual size. It was tested yesterday with perfect success.

The science of resonance. In other words, when a musical note is struck that is purely resonant it will cause a brilliant light to appear in a vacuum tube. In this connection will be shown the famous Geissler tubes, the original vacuum tubes, from which all cathodes have been evolved.

Water will be decomposed by electricity into oxygen and hydrogen. On the main floor there will be a model of the Erie Canal, showing the propulsion of boats by electrical power.

The original telegraphic instruments used by Professor Morse on the first wire built, as well as the latest quadruplex, will be shown. The first dynamo, constructed at Cornell University, will be exhibited.

PLUNKITT'S COURT HOUSE.

Million-Dollar City Building in a Side Street Uptown Now Partially Occupied.

Carpenters and plasterers were at work with a tremendous amount of noise when Civil Justice James J. O'Gorman opened court yesterday morning in the new and almost finished city building in Fifty-fourth street, between Eighth and Ninth avenues.

Owing to the expiration yesterday of the lease of the building in Eighth avenue in which the Eleventh Judicial District Court was formerly held, Justice O'Gorman was compelled to move into the new quarters before they were ready.

There were no formalities of any kind and the session was very brief, the lawyers and litigants agreeing with the Justice that a postponement would add to the comfort of all concerned. The court attendants contributed a great floral horseshoe, which adorned the desk of His Honor. That bit of color seemed all the more lovely because of the disorderly surroundings.

The second floor of the new building will be used as a police court and will be known as District No. 2. It will not be ready until some day next week. It is probable that on Monday or Tuesday there may be some coronations.

This new city building is on the south side of Fifty-fourth street and extends through the block to Fifty-third street. It has a frontage of fifty feet. The building has cost the city nearly a million dollars. It is said that ex-Senator George W. Plunkitt, Tammany leader of the Seventeenth Assembly District, was influential in having this site selected for the new court building, his alleged purpose being to enhance the value of real estate which he owns in the neighborhood. The site can hardly be considered an ideal one for so handsome a building. It is adjoined on the west by the stables of the Ninth Avenue Street Railway Company and on the south by the elevated railway structure, in West Fifty-third street.

The Narragansett Inn, in which ex-Senator Plunkitt is the leading spirit, is located on the opposite side of Fifty-fourth street.

Showalter to Meet Barry. J. W. Showalter telegraphed to the Journal yesterday that he would be ready to meet Barry, the Boston chess crack, at Boston on May 9, in order to begin the chess match of seven games up for \$2,000 and the championship of the United States.

HER STORY OF LOVE, A FREAK OF INSANITY.

The Woman Who Told the Newark Police a Doctor Deceived Her Is Identified.

She is Mrs. Joseph Dreyer, of Brooklyn, and is Now in Bellevue Hospital.

GRIEF UPSET HER MIND, PROBABLY.

Said Her Name Was Durand, and May Be the Woman Who Tried to Steal a Ride to Europe—Found by Her Husband.

The woman who puzzled the Newark, N. J., police by her story of love and desertion and her strange conduct last Wednesday and Thursday was identified yesterday as Mrs. Armina Dreyer, of No. 22 First place, Brooklyn. Joseph Dreyer, her husband, said she had come to this city from New Orleans to marry a Dr. De Lome, who lived in Forty-second street, this city. The doctor had deserted her, she asserted, just before the marriage ceremony was to have taken place.

On Thursday morning the woman's condition was such that she was taken to a hospital and kept until yesterday morning, when she was sent to the police station. Her husband, who had seen her description in the newspapers, was waiting at the station when she arrived. She first looked coolly at Mr. Dreyer, and said that she did not know him. After some coaxing she acknowledged that she was his wife, and said she was willing to go home with him.

MELANCHOLY, THEN CRAZY. Mr. Dreyer told Captain Daly that they had been married fifteen years, but had no children. About four months ago Mrs. Dreyer returned from a ten months' visit to her father and relatives in France. She seemed melancholy after her return, and a few weeks ago went West to attend the funeral of a sister. On her return she seemed more melancholy than ever. On several occasions she remained away from home all night. Her last disappearance was on Wednesday afternoon, when she said she was going shopping. She was handsomely dressed and had considerable money when she left home. Most of her money was still in her possession when she was found in Newark.

A woman who gave her name as Durand made several attempts last week to go to Europe on a Bremen line steamship, without tickets and was put off.

TWO THEATRES CLOSED.

Chinese Playhouse and a Third Avenue Place of Amusement Have Trouble Over Licenses.

There was considerable activity in the Mayor's office yesterday, owing to the renewal of licenses for theatres and concert halls. Chief Clerk Blon L. Burrows saw the managers of a majority of the seventy-nine places of amusement and took in about \$25,000. Ex-Commodore Elbridge T. Gerry was in consultation with Mayor's Secretary Hedges. He objected to a renewal being granted to the Harlem Theatre, at One Hundred and Fifteenth street and Third Avenue, because, he claimed, performances had been given there in which girls under age had been employed, and that boys under ten years of age had performed on musical instruments on its stage. He demanded a hearing before the license is renewed. The renewal will be delayed.

The license for the Chinese Concert Hall, Nos. 5 and 7 Doyers street, is also "held up." Since Choo Fong was arrested and fined \$500 for performing on Sunday night that was shown not to be of a religious nature, the theatre has been run by Lee Quai, who is to pay \$250 for a six weeks' license. Some two weeks ago Superintendent Constable of the Building Department, decided that it was necessary to have certain alterations made to protect the audience against fire. Moreover, he found that the end of the Doyers street theatre tilted at right angles with a lodging house having about 300 inmates.

POLICE WILL PARADE JUNE 1.

Annual Review of the Department Arranged for by the Board.

The annual parade of the officers and men of the Police Department will take place this year on June 1. Major Andrews and Colonel Grant, the military men on the Police Board, will have charge of the arrangements. It is estimated that nearly 4,000 men will be in line. Most of the men, too, will be dressed in the new summer uniform. Chief Inspector Hedges will take his position at the head of the line.

FALSE STORY OF DESERTION.

Mrs. Dreyer, who is thirty-eight years old, was first seen in Newark on Wednesday night, when she accosted Policeman Adams in Broad street. She was looking for a Mrs. Fatzinger, she said, and when the policeman told her he knew no such person, she became hysterical, and he started to take her to the station house. She begged not to be locked up, and Adams took her to his own home, where she told Mrs. Adams that her name was Durand, satisfied the officials that the woman was his wife, and he was allowed to start for his home with her, accompanied by Policeman Dauber.

While crossing the Cortland street ferry to this city Mrs. Dreyer tried to get away from her husband, saying that she wanted to jump into the river. Mr. Dreyer and the policeman restrained her until they reached the ferryhouse. There she was put in a carriage and taken to Bellevue Hospital to be temporarily cared for.

A Chance for Everybody

to buy Fine Clothing for little money, and to pay even that little WHEN CONVENIENT. That's what our Bargain Sales amount to. No wonder we're busy as bees.

EXTRAORDINARY SALE of Fine Spring Suits in mixed chevots, stripes and checks, also blacks and blues, from \$7.50 to \$10. The greatest sale ever advertised. Complete line of high grade clothing for Spring and Summer wear, from \$12 to \$25.

UNEQUALLED BARGAINS IN BOYS' AND CHILDREN'S SUITS. 2 and 3 piece Suits in best fabrics, from \$1.75 up. Tailors on premises to look after your attire. Goods kept in repair. LADIES' AND MISSES' CAPES, JACKETS, SUITS, ETC., DRESS GOODS. All purchases can be made on terms of EASY CREDIT.

T. KELLY, 263 6th Ave. 104 and 106 West 17th St. 403 and 470 Fulton St., Brooklyn. 200 and 202 Market St., Newark.

Advertisement for Cowperthwait and Chatham Square, featuring furniture, carpets, and baby carriages. Includes prices like \$1.00 weekly on \$65.00 worth.

DISEASE DESCRIBED BY ITS CURE PROVEN BY RESULTS.

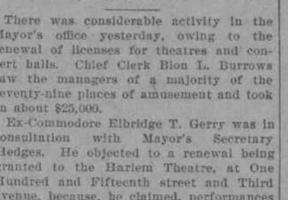

The Knowledge Which Enables the Copeland Physicians to Describe Diseased Conditions Has Contributed as Well to Their Superb Mastery Over Them—Giving Doctor Copeland's Symptom Questions and Citing Instances of Notable Cures.

DISEASE DESCRIBED BY TABULATED SYMPTOMS.

Great numbers of people suffer from the malign poisons of catarrh, as from other subtle chronic maladies, without any correct or definite idea of the nature of their affliction. The symptoms below have been carefully arranged by Doctor Copeland to enable many sufferers to understand just what it is that ails them. The proper course for sufferers is this: Read these symptoms carefully over, mark those that apply to your case and bring them with you to either office of the Copeland Medical Institute. If you live away from the city, send them by mail to the Fifth Avenue office and ask for home treatment.

DISEASE OF HEAD AND THROAT.

The head and throat being diseased descending Catarrh, when the condition of the blood predisposes to this condition.

John Hoffman, 1325 Broadway, Brooklyn, cured of Disease of the Head and Throat.

- 'Is the voice husky?' 'Do you spit up slime?' 'Do you sneeze all over?' 'Do you sneeze at night?' 'Do you blow out snags?' 'Is the nose stopped up?' 'Does your nose discharge?' 'Does the nose bleed easily?' 'Do crabs form in the nose?' 'Is the nose sore and tender?' 'Does the nose swell?' 'Is this worse toward night?' 'Does the nose tick and burn?' 'Is there pain in front of the head?' 'Is there pain across the eyes?' 'Is there pain in the back of the head?' 'Is there tickling in the throat?' 'Is your sense of smell leaving?' 'Do your hands or feet sweat?' 'Is there a dropping in the throat?' 'Is the throat dry in the morning?' 'Are you losing your sense of taste?' 'Do you sleep with the mouth open?' 'Does your nose stop up toward night?'

DISEASE OF BRONCHIAL TUBES.

This condition often results from catarrh extending from the head and throat, and, if left unchecked, extends down the windpipe into the bronchial tubes and in time attacks the lungs.

Joseph Wood, 382 South Fourth street, Brooklyn, cured of Bronchial Asthma and Heart Trouble.

- 'Have you a cough?' 'Are you losing flesh?' 'Do you cough at night?' 'Have you pain in side?' 'Do you take cold easily?' 'Is your appetite variable?' 'Do you spit up yellow matter?' 'Do you cough when you lie?' 'Do you spit up little cheesy lumps?' 'Have you a disgust for fatty foods?' 'Is there a tickling behind the palate?' 'Do you feel you are growing weaker?' 'Is there a burning pain in the throat?' 'Have you pain behind the breastbone?' 'Do you cough worse at night and morning?' 'Do you have to sit up at night to get breath?'

DISEASE OF THE STOMACH.

This condition may result from several causes, but the usual cause is catarrh, the virus dropping down into the stomach and being swallowed.

James Rockwell, 378 4th Avenue, New York, cured of Disease of the Stomach and Heart Trouble.

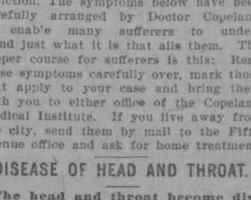

- 'Is there nausea?' 'Are you costive?' 'Is there vomiting?' 'Do you belch up gas?' 'Have you waterbrash?' 'Are you light-headed?' 'Do you feel faint?' 'Do you have sick headaches?' 'Are you nervous and weak?' 'Do you have sick headaches?' 'Do you bleed up after eating?' 'Is there disgust for breakfast?' 'Do you feel as if you had lead in stomach?' 'When you get up suddenly are you dizzy?' 'When stomach is empty do you feel faint?' 'Do you belch up material that burns throat?' 'When stomach is full do you feel oppressed?'

DISEASE DESCRIBED BY SYMPTOMS.

The Knowledge Which Enables the Copeland Physicians to Describe Diseased Conditions Has Contributed as Well to Their Superb Mastery Over Them—Giving Doctor Copeland's Symptom Questions and Citing Instances of Notable Cures.

DISEASE OF THE EARS.

Deafness and ear troubles result from catarrh passing along the Eustachian tube that leads from the throat to the ear.

James Clark, 254 Elton street, Brooklyn, very deaf twenty years. Hearing restored.

- 'Is your hearing falling?' 'Do your ears discharge?' 'Do your ears tick and burn?' 'Are the ears dry and itchy?' 'Have you pain behind the ears?' 'Is there a throbbing in the ears?' 'Is there a buzzing sound heard?' 'Do you have ringing in the ears?' 'Are there crackling sounds heard?' 'Is your hearing less today?' 'Do you have caracch occasionally?' 'Are there sounds like steam escaping?' 'Do your ears hurt when you blow your nose?' 'Do you constantly hear noises in the ears?' 'Do you hear better some days than others?' 'Do the noises in your ears keep you awake?' 'Do you have caracch occasionally?' 'Is your hearing worse when you have a cold?' 'Is there roaring like a waterfall in the head?'

DISEASE OF THE NERVES.

The majority of nervous diseases are caused by poisons in the blood, poisons circulating in the blood harasses the brain and nerves, and such symptoms as these follow:

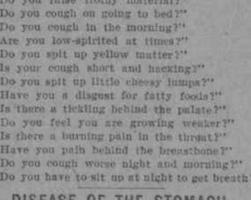

Mrs. G. W. Goldsmith, Mattewan, New York, cured of Disease of the Nerves.

- 'Do you get giddy?' 'Are you easily fatigued?' 'Are your limbs numb?' 'Do you have headache?' 'Are you easily excited?' 'Do your temples throb?' 'Do your hands tremble?' 'Does your heart flutter?' 'Are you easily irritated?' 'Are you always anxious?' 'Do your muscles twitch?' 'Is your temper irritable?' 'Is your brain fagged out?' 'Suffer from sleeplessness?' 'Are you easily frightened?' 'Does conversation bore you?' 'Are you habitually nervous?' 'Do you forget what you read?' 'Do you suffer with neuralgia?' 'Do you have horrible dreams?' 'Do you start up in your sleep?' 'Do you wake up with a headache?' 'Have you lost power in your legs?' 'Have the least thing annoy you?' 'Do you have pain on top of head?' 'Do you wake up with a headache?' 'Do you have pain in back of head?' 'Do your legs and arms go to sleep?'

DISEASE OF THE KIDNEYS.

This condition results either from colds or from overwork of the kidneys in separating from the blood the poisons that have been absorbed from catarrh.

Timothy Driscoll, 65 Carmine street, New York, cured of Disease of the Kidneys.

- 'Is the skin pale and dry?' 'Is your hair falling out?' 'Has the skin a waxy look?' 'Is the hair dry and brittle?' 'Is the skin dry and itchy?' 'Do the legs feel too heavy?' 'Do you have aching in the back?' 'Do the joints pain and ache?' 'Are they cold and clammy?' 'Is the urine dark and cloudy?' 'Are the eyes dull and staring?' 'Is there pain in small of back?' 'Do your hands and feet swell?' 'Have you pain in top of head?' 'Is the perspiration a bad odor?' 'Is there stiffness under the eyes?' 'Is there a bad taste in the mouth?' 'Is there a desire to get up at night?' 'Are there dark rings around the eyes?' 'Does a deposit form when standing?' 'Do you have aching in the back?' 'Have you chilly feelings down the back?' 'Do you see unpleasant things while asleep?'

DISEASE OF THE LIVER.

This condition results from the liver being affected by catarrh extending from the stomach into the tubes of the liver.

- 'Are you irritable?' 'Are you nervous?' 'Do you get dizzy?' 'Do you have aching in the back?' 'Do you have cold feet?' 'Do you feel miserable?' 'Is there a burning after eating?' 'Do you get tired easily?' 'Do you have hot flashes?' 'Is your weight dropping?' 'Have you pain in the back?' 'Do you have aching in the back?' 'Is your flesh soft and flabby?' 'Are your spirits low at times?' 'Is there a bloating after eating?' 'Have you pain around the ribs?' 'Do you have gurgling in bowels?' 'Do you have chills in bowels?' 'Is there throbbing in the stomach?' 'Do you have aching in the back?' 'Do you suffer from pains in temples?' 'Do you have palpitation of the heart?' 'Do these feelings occur four months?' 'Is there a general feeling of lassitude?'

THE SYMPTOMS OF DISEASE OF THE EARS.

Deafness and ear troubles result from catarrh passing along the Eustachian tube that leads from the throat to the ear.

Peter J. Clancy, 228 East 80th street, city. 'I was excruciated from just duty by Judge Patterson because I was so deaf. My hearing has been restored, and can hear perfectly.'

- 'Is your hearing falling?' 'Do your ears discharge?' 'Do your ears tick and burn?' 'Are the ears dry and itchy?' 'Have you pain behind the ears?' 'Is there a throbbing in the ears?' 'Is there a buzzing sound heard?' 'Do you have ringing in the ears?' 'Are there crackling sounds heard?' 'Is your hearing less today?' 'Do you have caracch occasionally?' 'Are there sounds like steam escaping?' 'Do your ears hurt when you blow your nose?' 'Do you constantly hear noises in the ears?' 'Do you hear better some days than others?' 'Do the noises in your ears keep you awake?' 'Do you have caracch occasionally?' 'Is your hearing worse when you have a cold?' 'Is there roaring like a waterfall in the head?'

DISEASE OF THE NERVES.

The majority of nervous diseases are caused by poisons in the blood, poisons circulating in the blood harasses the brain and nerves, and such symptoms as these follow:

Lizzie Boroz, 24 Clinton street, city. 'I was very deaf for years, so deaf that I could not hear anything in that ear. There were noises in my ears, resembling a waterfall. I went to the Copeland physicians, and they have entirely cured me of deafness so that I can hear distinctly in the ear that was deaf.'

- 'Do you get giddy?' 'Are you easily fatigued?' 'Are your limbs numb?' 'Do you have headache?' 'Are you easily excited?' 'Do your temples throb?' 'Do your hands tremble?' 'Does your heart flutter?' 'Are you easily irritated?' 'Are you always anxious?' 'Do your muscles twitch?' 'Is your temper irritable?' 'Is your brain fagged out?' 'Suffer from sleeplessness?' 'Are you easily frightened?' 'Does conversation bore you?' 'Are you habitually nervous?' 'Do you forget what you read?' 'Do you suffer with neuralgia?' 'Do you have horrible dreams?' 'Do you start up in your sleep?' 'Do you wake up with a headache?' 'Have you lost power in your legs?' 'Have the least thing annoy you?' 'Do you have pain on top of head?' 'Do you wake up with a headache?' 'Do you have pain in back of head?' 'Do your legs and arms go to sleep?'

DISEASE OF THE KIDNEYS.

This condition results either from colds or from overwork of the kidneys in separating from the blood the poisons that have been absorbed from catarrh.

Richard Freshell, 516 West 44th street. 'I had great difficulty in breathing, as my head was always stopped up, and I had a bad cough. I was always nervous and spinning. The muscles of my stomach and small intestine were full of gas. I went to the Copeland physicians and they have cured me of all my troubles.'

- 'Is the skin pale and dry?' 'Is your hair falling out?' 'Has the skin a waxy look?' 'Is the hair dry and brittle?' 'Is the skin dry and itchy?' 'Do the legs feel too heavy?' 'Do you have aching in the back?' 'Do the joints pain and ache?' 'Are they cold and clammy?' 'Is the urine dark and cloudy?' 'Are the eyes dull and staring?' 'Is there pain in small of back?' 'Do your hands and feet swell?' 'Have you pain in top of head?' 'Is the perspiration a bad odor?' 'Is there stiffness under the eyes?' 'Is there a bad taste in the mouth?' 'Is there a desire to get up at night?' 'Are there dark rings around the eyes?' 'Does a deposit form when standing?' 'Do you have aching in the back?' 'Have you chilly feelings down the back?' 'Do you see unpleasant things while asleep?'

DISEASE OF THE LIVER.

This condition results from the liver being affected by catarrh extending from the stomach into the tubes of the liver.

- 'Are you irritable?' 'Are you nervous?' 'Do you get dizzy?' 'Do you have aching in the back?' 'Do you have cold feet?' 'Do you feel miserable?' 'Is there a burning after eating?' 'Do you get tired easily?' 'Do you have hot flashes?' 'Is your weight dropping?' 'Have you pain in the back?' 'Do you have aching in the back?' 'Is your flesh soft and flabby?' 'Are your spirits low at times?' 'Is there a bloating after eating?' 'Have you pain around the ribs?' 'Do you have gurgling in bowels?' 'Do you have chills in bowels?' 'Is there throbbing in the stomach?' 'Do you have aching in the back?' 'Do you suffer from pains in temples?' 'Do you have palpitation of the heart?' 'Do these feelings occur four months?' 'Is there a general feeling of lassitude?'

THE COPELAND PHYSICIANS CURING THE DEAF.

Peter J. Clancy, 228 East 80th street, city. 'I was excruciated from just duty by Judge Patterson because I was so deaf. My hearing has been restored, and can hear perfectly.'

Mrs. Annie Raynor, 208 West 142d street, city. 'I was deaf in my left ear, so deaf that I could only hear with my right ear. I can now hear in my left ear almost as well as I can hear in my good ear.'

James Flynn, 645 West 130th street, city. 'I could hear anything in my right ear. I was so deaf in that ear. There was a roaring sound in that ear. Now I can hear distinctly in my right ear, and the noises are all gone.'

Thomas Gordon, 512 East 11th street, city. 'I was so deaf in both ears that I had to shout at me in order to make me hear what they said. I was so deaf that I could not hear how deep I really was, and could not hear it tick, and I decided to go to the Copeland physicians. After I had been under treatment a short time, I held my watch to both ear and I could hear it tick plainly.'

John E. Blake, 607 3d avenue, City. 'Very deaf for years. Hearing restored.'

John E. Blake, 607 3d avenue, City. 'I was deaf for years in both ears, and could not understand what people said to me. Noises in my ears were coming back. Now I can hear distinctly anything that is said to me, and the noises in my ears have gone.'

Lizzie Boroz, 24 Clinton street, city. 'I was very deaf for years, so deaf that I could not hear anything in that ear. There were noises in my ears, resembling a waterfall. I went to the Copeland physicians, and they have entirely cured me of deafness so that I can hear distinctly in the ear that was deaf.'

James Clark, 254 Elton street, Brooklyn. 'For twenty years I had been unable to hear what people said to me. If they were on my right side, I was deaf after being treated I was deaf, and I knew my hearing was coming back. Now I can hear a watch tick six inches from the right ear that was totally deaf for twenty years. I can hear distinctly now anything that is said to me.'
