The Paper to Read To-Morrow. The freak dance has captured New York and for the moment is the most discussed amusement.

Not at all unnatural that Foot Work, Mr. Shuster, leaving Teheran for Europe, should feel like kicking in a few panels of the Persian Cabinet.

How to Advertise. Many business men are unlearning a lesson in advertising which has proved to be very expensive for them.

Not at all unnatural that the latest record shows the changes in the temperature for the last twenty-four hours.

Occasionally, though rarely, January has made a local record of more than 6 degrees below zero in the lower Hudson Valley.

The marked development of the approaching cold wave, however, indicates

Jokes on a High Topic.

Hardly need that physician's grave warning against the perils of overeating. Food trusts too busy keeping us away from the danger zone.

American Rose Society's all right in its sphere, but the howling need just now is for a Potato Bund.

Book collector who paid \$85 for "The Hunch of Venison" might have thought he was getting a real meat shop product if the price had been a trifle higher.

Residents of Summit, N. J., are much exercised because the cost of living is higher there than elsewhere.

Dr. Reed says Americans are killing themselves by overeating. Rather complimentary in these days of sky rocketing grocery bills.

Strange Folk. The last dime museum in New York has closed its doors. Naturally it had to quit when the metropolis is so full of freaks that can be seen for nothing.

Letting the man who will not see Harm done to woman, left or right; Let no injustice ever be Committed in his sight.

I sing the man who will not hear His neighbors roared, he's a chap Who will not turn a willing ear When words of scandal snap; He doesn't care to have a joke Poked to him; will not let a chef Tell how he poisons puny folk— But, then, he's deaf.

I sing the maid who never prates Of woman's rights or man's abuse Of power in governing the States; Who offers no excuse For follies which our women show; Who'll let things as they are remain; This is incredible, I know— But she's insane.
